Broke Splitter

Team 7
Ron Dumalagan, Himmat Garcha, Michael Lamaze, Shannon Nicole Dinio

I pledge my honor that I have abided by the Stevens Honor System.

Description of the website
Our solution, Broke Splitter, is a website that can help users calculate the exact amount that each member of a party owes after inputting their bill information. By choosing the split type (even split, by meal, percentage), and state (for tax purposes), Broke Splitter will redirect users from the index.html page to the breakdown.html page to automatically calculate how much each individual person owes. We hope to eliminate the tedious bill calculation process with this simple and streamlined solution.

List of all the HTML markup elements utilized
- \<h1\>
- \<img\>
- \<div\>
- \<hr\>
- \<form\>
- \<label\>
- \<select\>
- \<input\>

A list of appearance modifications you would like to apply to your initial HTML webpage
- Different fonts
- Different font colors
- Different font sizes
- Center alignment of all elements
- Button appearance
